

## TAKE IN THE SIGHTS ON THE RHINE - ART, CULTURE, NATURE

Perhaps we are biased, but it really is beautiful here. There is so much to discover. Such as the Beethoven city of Bonn with its fantastic museums, charming squares, and pretty cafés. Or how about a trip to Cologne, a cycling tour along the Rhine, or hiking in the "Siebengebirge"?

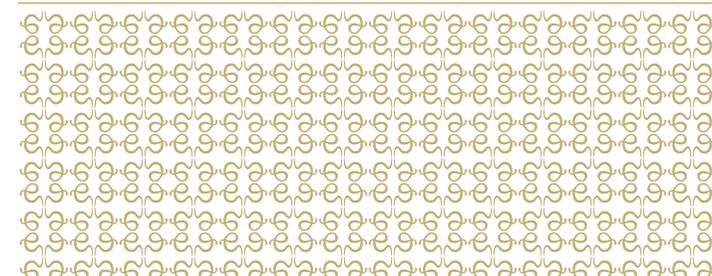

## GOOD TASTE WHEREVER YOU GO

At the Rheinhotel Dreesen we offer you three restaurants that have one thing in common: food and drink of the highest quality. Enjoy Rhineland-French cuisine in the Gobelin restaurant, indulge in tapas and grilled specialities in the Kastaniengarten, or relax with local fare in the beer garden.
